

**Dr Beth Shore.**

I was born and raised in Rotherham, England and moved to Manchester where I studied Medicine and worked at Tameside Hospital. I moved to Christchurch in 2012 and spent some time working in the hospital, primarily in paediatrics where I completed my diploma of child health, before moving into general practice.

When I'm not working my two kids keep me busy and entertained! In any spare time I enjoy reading, and have recently taken up crochet and knitting.

I love the opportunity that working in general practice gives me to really get to know my patients and their families, I very much look forward to getting to know the community at Silverstream.
